Election/Restrictions

Applicant's election without traverse of species A in a telephone interview on 5/12/05 is acknowledged.

Claims 3-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply phoned in on 5/12/05.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is not understood what "at speed" refers to or what it means. Is there a speed number that is to be determined here? Furthermore, what does "greater perceived thickness" and "greater strength in all axes than a conventional aerofoil" mean? This is vague and indefinite. What does "as neatly as possible" mean?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3644

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Vanmoor.

Vanmoor discloses what has been claimed. See figure 2.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
